

Post-Implementation Services

Here at AXL, we use our expertise to focus on our client’s critical requirements and deliver the right solutions to ensure maximum value for their Dayforce investment. For over 10 years, we’ve been a Ceridian certified partner and our experienced consultants have successfully guided over 350 clients to achieve their HCM goals.

Our optimization services are tailored to the specific needs of each client. No need to worry if we can help – we can meet your needs regardless of where you are in your HCM implementation journey.

AXL Global Consulting Services to Optimize Dayforce	
Success Metric/KPIs	<p><i>“What gets measured, gets done.”</i> You aligned business your objectives to quantifiable KPIs, set baselines, and are working toward your original goals.</p> <p>Now that you’ve been live for a while, do you KPIs align with your current goals? Do they need to be recalibrated to where you’re headed now? Let’s take a look and adjust where needed so you can continue to gain the benefits of your Dayforce system.</p>
Adoption Strategies	<p>Are your users using the system as intended so that you can reap your ROI?</p> <ul style="list-style-type: none"> You’ve spent all the time and resources implementing a scheduling system but your schedulers just copying schedules from week to week or from the same schedules they ran last year. You’ve meticulously implemented and tested a date effective time and attendance system with automated retro functionality but people are still putting missing hours onto their current timesheet. <p>If these scenarios sound familiar, we can help! We’ll pull from our tried-and-true strategies to get your users to see how much the system can benefit them.</p>
Data and Reporting Solutions	<p>Now that you have all your data in 1 system and have built up some history, we can help you build the reports or exports you need to help run your business better. Data is power.</p>
Testing as a Service/Upgrades	<p>Dayforce releases exciting new functionality multiple times a year, we can help you review the release notes to see how they impact you and take advantage of the new features. We’ll build a repeatable regression testing process so that your upgrades are smooth sailing.</p>
Training and Documentation	<p>Now that the dust has settled on your implementation:</p> <ul style="list-style-type: none"> - Do you have documentation that you haven’t had a chance to update since design sign-off and it doesn’t have all your changes incorporated? - Do you need your configuration documented? - Does your training need to be updated because you’ve added new functionality or upgrades have changed the UI? - Do you need to revise your training based on feedback from your users?

	We're here for you! We can bring our templates and know-how to get your artifacts updated and ensure you pass that audit.
Benefits updates/Open Enrollment	We can support your yearly Open Enrollment. As your benefit offerings change, we can help you make the tweaks (or overhaul) needed to ensure you're ready to go on time.
Optimize your ROI	We can help support you with: <ul style="list-style-type: none">• Add-on modules• Leverage new release functionality• Take advantage of synergies from modules you already own• Acquisition and merger onboarding• Legislative updates
System Administration	System Administration assistance for all modules: HR, Payroll, Benefits, WFM
